

OUR COMPANY

- ▶ SiteMedia Solutions is one of Australia's leading event and construction print media companies, specialising in printed on site signage, banner mesh and safety signage.

We deliver the best value for money in the industry with strong product solutions, innovations, vision, inspiration and un-paralleled service.

Our customised printed site media will give you maximum exposure, promote your brand and identity to a diverse audience and give you the most benefit from your otherwise blank temporary fencing and hoarding.

OUR APPROACH

- ▶ By listening to our clients' needs and then tailoring a custom solution based on their particular desired results, potential market forces and localities available, we can provide solutions, maximise the exposure of every site, and stay within your budget.

SiteMedia prides itself on service, and can offer supply only and supply and installation services to meet your needs Australia wide.

TESTIMONIALS

We are proud to have worked with some of Australia's most well-known brands:

“ Our next client is the one passing by our building site on their way to work. In actual fact 40% of our sales come from people passing by our sites. With this in mind, SiteMedia gave us a solution to provide a sturdy fence with full front signed mesh. This gives us a neat looking site from the outside. Finally a media company that cares about builder's needs.

Great company, great people. ”

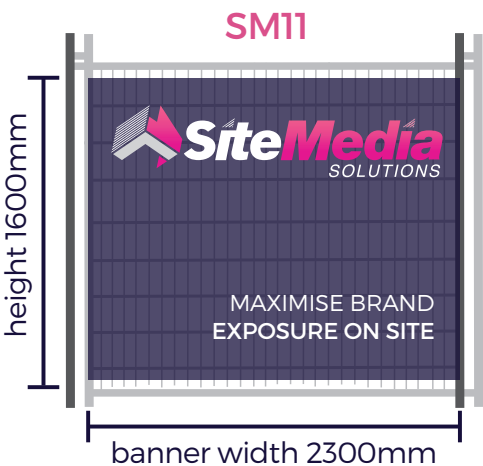

Rohan Forrest | Director, Carter Grange Homes

CORE PRODUCT RANGE
